WILL LIMIT HUN FORCES

ONE CONDITION OF PEACE WILL
BE ARMY OF NOT OVER
25,000.

By the Associated Press

PARIS, Feb. 18.—The special commission charged with drafting the terms of a definite armistice to last until the signature of the preliminary peace treaty has almost completed its task and it is possible, says a Havas report, that Marshal Foch will notify the Germans on Thursday or Friday of the military and naval terms which will be essentially those of the peace treaty. It is understood that a clause allowing Germany to keep only 25,000 men under arms will be included.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. WILSON TAKES SOLID REST

OBEYING ORDERS OF PHYSICIANS TO RECOVER AFTER VOYAGE HOME.

By the Associated Press

ON BOARD GEORGE WASHINGTON, Feb. 17.—President Wilson's ship is 700 miles on its homeward journey and is running fast down toward the Azores islands, which probably will be passed sometime tomorrow. President Wilson continues his enforced rest prescribed by Rear Admiral Cary T. Grayson, his physician, and has exercised little so far on the trip. It is probable he may announce a successor to Attorney General Thomas W. Gregory on his arrival at Boston.

If you don't sleep well at night from nervousness, indigestion or urinary troubles, you need Prickly Ash Bitters. It purifies the system and relieves the kidneys and bladder. Price \$1.25 per Bottle. Gwin & Mays Drug Co., Special Agents.

EDMOND DEFEATS EAST CENTRAL IN BASKET BALL.

The Edmond team defeated the Normal lads with a score of 49-15. This is the first game that the boys have played off their own court. There were several complaints from the boys of the treatment they received from their opponents.

BORAH AGAINST PEACE LEAGUE

IDAHO SENATOR OBJECTS TO CONSTITUTION OF LEAGUE OF NATIONS.

By the Associated Press

WASHINGTON, Feb. 18.—Stating in a letter to Secretary Tumulty that it was customary to hold in confidence information gained at such a gathering, Senator Borah of Idaho asked to be excused from attending a dinner at the White House at which President Wilson will discuss the Constitution of the League of Nations with the Foreign Relations Committee of Congress. Senator Borah added that nothing could make him agree with the league's constitution as it now exists.

DENEKINE'S ARMY REACHES CASPIAN

By the Associated Press

ODESSA, Feb. 18.—The anti-Bolshevik army of Gen. Denekine has reached the Caspian sea having advanced 350 versts and captured 31,000 prisoners, 95 guns and 8 armored cruisers.

VARDAMAN FLAYS PEACE LEAGUE

WASHINGTON, Feb. 18.—Discussion of the league of nations developed unexpectedly in the senate today. Senator Vardaman of Mississippi, Democrat, declared the league unconstitutional and criticized President Wilson for asking Congress to remain silent on the subject until he returned to Washington. Senator Vardaman spoke only a few minutes and there was no further debate.

Assisting Heredity.

A man's instincts, intuitions, sensations and perceptions, and especially his habits, are changed, improved and made to overcome his hereditary tendencies by the proper training of the muscles. With the impressions shot into the other senses, mentally and physically, impressions of the corrective, helpful, improving sort, there is no reason in the world why the hereditary nature of certain weak or unstable individuals cannot be aided and lifted out of their possibly unhappy state.

An Improvement.

A young guardsman called the other day on a certain financier, who insisted on showing him over his magnificent private house, informing him not only where he purchased every article in it but the price he paid for it. When he had finished he asked his visitor if he could suggest any improvement in the arrangement of the house. "Well," was the reply, "if you were to mark all the goods in plain figures it would save you a good deal of trouble."

Fellow-Feeling.

As a well-known Scottish divine was entering a car he noticed that some of the passengers were trying to eject a drunken man. The minister promptly interposed in his behalf and soothed him into respectability for the rest of his journey. Before leaving, however, the disturber again muttered angry words to the other passengers; then, seizing the reverend doctor's hands, he exclaimed: "Good day my fren'; I see you ken what it is to be drunk!"

Easy Immobilization.

In birds and mammals immobilization can be occasioned at will. In the seventeenth century Kircher immobilized fowls merely by turning them upon their backs. The experiment can be successfully made with any kind of bird. I have performed it with sparrows, with a wrenneck and with the finch immediately after their capture, thus excluding all idea of training. The same result can be obtained with various mammals, especially with mice.—Exchange.

For the Fish Pan.

My family is very fond of broiled mackerel, but the pleasure is lost for the cook with the thought of washing the ill-smelling broiler. My husband suggested laying the fish on a common wooden picnic plate and then in turn on the broiler. The result was a whole fish, unbroken in taking it off the broiler, and no disagreeable task after the meal, since the wooden plate can be burned when the meal is finished.—Good Housekeeping.

WILL HURRY PEACE TREATY

QUICK ACTION WILL FOLLOW WHEN DECISION IS REACHED ON RUSSIA.

By the Associated Press

PARIS, Feb. 18.—Some of the entente powers are planning as soon as the Russian problem now before the supreme council of the peace conference is disposed of to take up larger problems of the peace treaty. The state of public sentiment in Australia, America, England, Canada has impressed their representatives here of the necessity of taking steps to return soldiers home as soon as possible but all agree this cannot be accomplished entirely in advance of the conclusion of peace. France is insistent upon compliance with the armistice demands for return of industrial machinery taken by Germans but some of the other powers believe this should not be permitted to delay the signing of the peace treaty. These powers also contend that arranging the boundaries of new states cannot proceed after the signing of the treaty. No feasible plan for settling the Russian question developed during the two days the supreme council considered the situation. The effort will be resumed today.

NORWOOD HOTEL NOT TOTAL LOSS

(From Shawnee News-Herald) morning

Fire starting at 9:30 o'clock this morning in the basement of the Norwood Hotel for three hours threatened that and adjoining structures with destruction. It was controlled only after the most trying fight by the regular fire department and volunteers, who flooded the entire building with water. The flames worked up the partitions as high as the third floor. The damage to the building will probably be \$25,000 to \$30,000, while the loss to the Messrs. Willard on furniture and fixtures will probably be \$7,500 or more. The building is owned by W. F. Callahan of Omaha, Nebraska, and is valued at about \$65,000.

The fire is thought to have started from a water heater in the basement. It spread to the coal stored there, and the resulting smoke and fumes made it impossible to get at the seat of the fire to fight it. Chas. Eslick, former fireman, who was assisting the department, was overcome by smoke in the basement and was pulled down the fire escape by Chief Kennedy.

The progress of the fire was watched by hundreds of people. It was not until past one o'clock that it appeared completely subdued.

HEARING ON ALLEN CHARGES POSTPONED

WASHINGTON, Feb. 18.—Congressional investigation of losses among Kansas and Missouri troops of the 35th division in the Argonne forest fighting, asserted by Governor Allen of Kansas to have been excessively heavy because of inefficiency and lack of artillery, will go over until the next session, according to a decision by the House rules committee today.

Complaints are becoming more frequent of petty thievery in every part of the city. It is very annoying and it will require the united vigilance of the citizens to break it up, since most of it occurs in the residence sections. A case in point a few days ago was the theft of the individual communion glasses and silver wine pitcher from the first Baptist church. Just what went with the articles has not been ascertained. Many people complain of the theft of chickens, eggs and other things about their barns where the young vandals slip in unobserved.

MAIL ORDER BUSINESS.
The merchants of Ada complain when citizens send out of town for goods they can get at home, and they have a right to complain. They not only have a right to complain, but they know the citizens are losing money. The people who patronize mail order houses are not loyal to their town or loyal to themselves. They send money out of the community and there is no chance to get it back.

A few people who patronize mail order houses may be excused for doing so on account of ignorance, but the banker who patronizes them can not be excused on that ground. There are bankers in Ada who patronize mail order houses, mail order printing houses. The Ada News has equipped one of the most modern print shops in Oklahoma. It, as well as some of the other shops in town, is able to compete in price and quality of work with the best printing plants in our large cities, but some of the bankers of Ada do not give The News an opportunity to make prices on most of their work. They simply fire it in to a mail order house.

Marshal Foch gave the Germans a demonstration of the mailed fist the kaiser used to prate about when he replied to the demand of the armistice delegates to modify the terms or delay matters a few days telling them to sign at once or he would start his

armies on a march through Germany. Finding that their game of bluff did not work the delegates quickly came to terms. Had Foch shown any indecision the Huns would have felt so cheery that they would have caused serious trouble. The world knows them now and Foch knows every inch of their nature and every treacherous impulse, hence Herr Ebert & Co. will not put much over, although they may do quite a little squawking when the thumb screws are applied. Not an expression of regret for the crimes of the past has come from them, as is attested by Herbert Hoover and the civilized world is dealing with an unrepentant horde of criminals. The kaiser is an exile, but his spirit still rules.

One thing is certain there will either be fewer violations of the city ordinances or else fewer violators before many more months roll around. Mayor Kitchens intends to make Ada a better city morally than it has been for a long time past, as law breakers are finding out to their cost. The police have their orders to spare none and when brought before the mayor all look alike to him. Meantime the city treasury is receiving some substantial additions.

SEVEN YEARS OF CRIME NETS \$500

Daring Burglar Decides to Reform After He Leaves Prison.

Long Island City, N. Y.—After having spent seven years as a burglar and all-around robber and gaining less than \$500 in all of that time, eighteen-year-old Stephen Leyser told Supreme Justice Humphrey in Long Island City, N. Y., that he had decided to take up another career as soon as he had the opportunity. He pleaded guilty of having stolen an overcoat from a tailor shop and was sentenced to the state reformatory.

"I am going to keep a watch on your record there," said the judge, "and if

Sentenced to the State Reformatory.

you behave yourself I will help you start on a new career when you get out."

"I'll be as good as any boy in the institution," he replied.
Leyser was known to the police as "Yellow Spot." Every time he would commit a burglary he would leave behind a card bearing that name. He often left notes denouncing the police for not being able to catch criminals. In one of these left in the tailor shop he said they would be able to catch thieves if they were not so much interested in moving picture shows while on duty.

The police had sought "Yellow Spot" for months, but they were astounded when Leyser admitted he was the criminal. Despite his youth he has spent several years in prisons and institutions.

COURT LIKES MALE ATTIRE

Finds It Not Unbecoming in Mary Schmidt and Refuses to Fine Her for Wearing It.

St. Louis.—Ruling that male attire was not unbecoming to Mrs. Mary Bertha Schmidt, alias "Mr. Schmidt," Judge Hogan, in police court here, refused to fine the young woman who for two years posed as a man and who "married" her cousin, Anna Assade last October.

"I think you look very nice," said the court. Mrs. Schmidt was clad in her neatly pressed trousers and pinched coat. She explained she had adopted the garments because she could earn \$80 a month as a man and \$6 a week as a woman.

"If a woman can earn \$3 a day by reason of wearing trousers, I say wear 'em," said the court, and "Mr. Schmidt" walked out of court with a smile on "his" face.

Daily Health Talks

A WORD ABOUT THE KIDNEYS

BY DOCTOR WATSON.

People are easily frightened when they think something is the matter with their lungs or heart, and well they may be; but few people understand the dangers of diseased kidneys. These organs have a duty of vital importance to perform, and if they are diseased, there is no telling how or where the symptoms may appear. The kidneys are filters, and when they are healthy they remove the poisons from the blood and purify it. When the kidneys are diseased, the poisons are spread everywhere, and one of these poisons is uric acid. The uric acid is carried all through the system and deposited in various places, in the form of urate salts—in the feet, ankles, wrists and back—often forming bags under the eyes. Sometimes the resulting trouble is called rheumatism, lumbago, sciatica and backache. Finally, come stone in the bladder, diabetes and Bright's disease.

Dr. Pierce, of Buffalo, N. Y., in recent years, discovered that a certain combination of remedies would dissolve uric acid (urate salts) in the system. He found this combination to be harmless, so that he made it up in tablets, of double strength, and called them Anuric Tablets. They dissolve uric acid in the human system as hot coffee dissolves sugar. If you have uric acid troubles, don't delay in taking Anuric Tablets, which can be secured in the drug stores. You can write Dr. Pierce, too, and he will tell you what to eat and how to live so that more uric acid will not form in your system. Dr. Pierce will not charge for this advice.

APPEAL FOR RELIEF OF TURK WAR VICTIMS

OKLAHOMA CITY, Feb. 18.—From far away Armenia comes the report that starving millions are grazing in fields like cattle.

At Teheran (Persia) and other cities, men, women and children prostrated on streets from exhaustion and dying from starvation. People grazing in fields like cattle. Children came to the rest houses with flesh hanging on bones like rags, voices gone, but anxious eye pleading and imploring for a crust.

Their escape from starvation has been almost wholly due to the open hearts and pocketbooks of America and England. The American Committee for Relief in the Near East is the only organized effort to afford relief to those victims of twentieth century barbarism. It has already spent more than \$15,000,000 in this work, and is now asking Oklahoma people to give \$330,000 to carry it on.

All of the money spent to date has been used merely to keep alive the destitute, until such time as the actual rehabilitation of the Near East could begin. Now that the war is over, that time is at hand. Exports of the committee have estimated that \$30,000,000 will be needed immediately to start this work, and a drive will be needed immediately to start this work, and a drive will be carried on through the United States.

Half of the amount to be raised during the drive will be expended in keeping alive the destitute. More than 1,770,000 exiles are to be returned to their homes, and clothing must be provided for 2,900,000 refugees. There are more than 400,000 children made orphans by the war who must be cared for at once if they are to be made assets to the world. An estimated expenditure of \$10 for a child brings the total needed for these orphans to \$4,000,000. Houses for the 1,770,000 persons whose homes have been destroyed will cost \$2,500,000 and many more millions will be needed to buy seeds, cattle, and farm implements before the country can be put again on a producing basis.

BLOODY BATTLE IN WATCH TOWER

Two Men Stage Fight as Hundreds Stand Helpless.

DROP FROM WEAKNESS

Bodies of Men Were Mauled and Hacked in Almost Unbelievable Fashion, and Their Clothing Was in Shreds.

Chicago.—Mike Smith, a Slav, climbed the ladder leading into the Chicago, Milwaukee & St. Paul railroad tower at Erie and Kingsbury streets to relieve Dominick Gigonti, an Italian. The men watch the crossing over many trucks and switches, and lower and raise the gates.

There has been hostility between them for some time. Mike, as he stuck his head inside, saw something that fired his anger. He said: "Who drove that spike hole through that galvanized bucket?"

Scene of the Battle.
Hot words followed, and the men squared off. The site chosen for the battle was in a little room four by six feet. It was glassed in before the fight and on top of a tower maybe 15 feet high.

Mike chose an iron bar and a short piece of chain. Dominick had a can cover for a shield and a heavy hydrant key for a weapon. With oaths the men began to fight. Blood flew and the windows were demolished.

People began to gather. The crowd swelled to dozens, hundreds, and then perhaps a thousand or two. Neighbors phoned for the police. Minutes passed and the battle went on. Otto J. Stolzenberg, chief of the railroad police, and Joseph Haggerty, city patrolman, were soon on the scene. They

The Battle Went On.

were helpless, for the battle was going on in the tower, up a shaky ladder, and to stick a head up meant probable death. The men swayed and weaved and gasped. More minutes passed. Blood was everywhere. Under the blows they gradually weakened.

Both Fighters Collapse.
Finally they collapsed and the police reserves arriving, lowered them down. At the East Chicago avenue station examination showed that the men's bodies were mauled and hacked in an almost unbelievable fashion. Their clothing was in shreds.

Smith has a wife and four children. Gigonti, a widower, also has four children.

Makes Plans for Burial Before She Takes Life

Easton, Pa.—Miss Anna Innes, 67, before ending her life by the gas route, laid out all the clothing in which she wished to be buried, stuffed paper in the window and door frames, wrote letters to her nieces and then fastened one end of a gas tube to her mouth by a linen holder that she had made for that purpose.

Politeness Is Painful.

Cleveland, O.—Solomon Grassgreen is going to be about the most unpolite person in these parts from this time on. Grassgreen was cranking his automobile when a policeman dropped off a passing street car. As he alighted, his revolver dropped out its holster, and Grassgreen, being polite, stooped and picked it up for the officer. In doing so, the weapon was discharged and Grassgreen was shot through the right hand.

Use Van to Haul Away Loot.

Chicago.—Depleted of all furniture, tapestries, linens, silver and rugs, the house of A. F. Smith was found virtually empty when the family returned from the theater. Burglars, armed with a moving van, had busied themselves during the hours of the Smiths' absence.

INFORMATION FOR SOLDIERS

CAMP TRAVIS, Tex., Feb. 18.—"Discharged soldiers: Keep up your War Risk Insurance," Captain Royall R. Watkins, of the Judge Advocate General's Department, United States Army, thus urges the men who have served their country in the great war. Captain Watkins addresses men up for discharge at Camp Travis, Texas, on the subject of War Risk Insurance, and has prepared the following synopsis of his talk:

You should keep up your government insurance for several reasons, he says. The main ones are:
It is the best insurance ever written, because all of Uncle Sam's resources are behind it.
It is the cheapest insurance ever written and even when converted into any other form of policies, you will be able to get it cheaper than you can elsewhere.

The present form of insurance may be converted at any time within the term of five years from the date the president issues the peace proclamation. In order to continue the government insurance, you must convert the present form into some other form of policy before or at the end of that five year period.
My advice to you is to wait until the time comes for you to convert the present form of insurance into another form (the issuance of the peace proclamation), then change it as soon as possible in order to get the benefit of your early age.

It will be necessary for you to pay your premium periodically, as you choose. You may pay by the month, six months or even a year in advance.
The War Risk Insurance Bureau has a lot of information to be given out to the discharged soldier about the government insurance and I suggest that you get all the information you can from the Bureau of War Risk Insurance, Washington, D. C. Write at once.

A great many men have an idea that the government will turn its insurance business over to other insurance companies. This is a mistake. The government is in the insurance business for the men who have been in the service and for them alone, and as long as you live you will have the privilege and be permitted to carry this insurance. Keep it up.

Allotments and Allowances.

Your allotments with the government will cease the day you are discharged. Your dependents, however, will receive the government allowance for the month after your discharge. If you have any delayed allotments or allowance ask the home service section of the American Red Cross to help you get it straightened out. If you want to write about it yourself, write to Washington, D. C. Compensation.

The compensation section of the war risk insurance law is an improvement upon the old pension laws. It is separate and distinct from the insurance section of the law and they must not be confused with each other.

The compensation law provides—among other things—"that any man who has a disability which can be traced back to an injury or an illness received while in the service and in line of duty and not brought about by him own willful act or misconduct, shall receive compensation from the government."

The government also will give free medical and hospital treatment, etc., and try to restore the injured or sick man to health. In addition to that, if his earning capacity at his old occupation is destroyed or impaired and he desires to learn a new occupation, the government will teach him any other occupation he may choose and he will be sent to school free and his family cared for while he is learning a new trade.

My advice to you, if you have a disability or one should develop within a year after your discharge, and such disability can be traced back to an illness, injury accident or exposure incurred while in the service in line of duty and not brought about by your own willful misconduct, write to the bureau of War Risk Insurance, Washington, D. C., and ask that a blank form for claim for compensation be sent you. This should be attended to at as early a date as possible.

The compensation paid for disabilities is a very liberal one and is paid each month. For further information concerning this compensation law, write to the claim section of the Bureau of War Risk Insurance, Washington, D. C.

Soldiers and Sailors Civil Relief Act.

This law was passed to protect the men while they were in the service—among other things, from judgments, mortgage foreclosures, homestead claims and public lands, and the usual high penalties and interest on delinquent taxes. If you should find on your return home that any one has taken advantage of you during your absence obtained a judgment against you or foreclosed a mortgage to recover any of your household goods, real or personal property of any sort, they can all be set aside.

I would suggest that you go to a lawyer and ask his advice, and if any one refuses to restore to you your goods, or remove the judgments or foreclosures, report them to the Federal District Attorney in your district and the matter will be thoroughly investigated by the federal grand jury. There is an extra heavy penalty attached to this law as a punishment for those who take advantage of the man in the service.

If any one of you has filed homestead claims on any public lands and such claims have been forfeited, submit to the land commissioner an affidavit as to the length of time you

have been in the service, and he will restore to you your rights under the original claim.

If any attempt to collect delinquent taxes is made, present to the tax collector an affidavit that you have been in the service and the length of time you served, and he will not charge the usual penalties and interest. The law provides that only six percent of the penalties and interest. The law provides that only six percent of the principal due can be charged as interest on all delinquent taxes.

If any of the foregoing conditions exist, I suggest that you write at once to the Bureau of War Risk Insurance and get a copy of the law called "The Soldiers and Sailors Civil Relief Act" and study it closely. Attend to this at once.

In writing to the Bureau of War Risk Insurance or the War Department, keep in mind these five essential points to be shown in your letter:

1. Your full name.
 2. Your army serial number (on your identification tag.)
 3. Your rank and organization when you make out your allotment or insurance papers (or when you entered the service.)
 4. The date you were discharged.
 5. Your present (home) address.
- When in doubt about anything, feel free to call upon the bureau of war risk insurance or the war department at Washington. They will be glad to give you all the information desired. Don't write back to your camp—all your papers have been sent to Washington, D. C. Write there.

REMARKABLE DISCOVERY ADDS FLESH AND STRENGTH

Amazing Results Are Shown Through Use of Irogen, Says People's Hospital.

According to leading authorities it is no longer necessary for thin, frail people to give up hope of becoming strong and healthy. The discovery of Irogen, they say, has demonstrated the fact that thinness is caused by a lack of the element in the blood which nature requires for the building of flesh and strength, and which it is now known Irogen supplies.

This new discovery, says Ralph Cravette, superintendent of the People's Hospital, New York City, has been proven, after exhaustive experiments and tests, to be one of the most important made in modern times, inasmuch as its results are permanent and unlike the so-called tonics, which only temporarily stimulate.

Dr. William Howard Baird, the noted medical author and nerve specialist, declared that thin people need not put the blame for their excessive thinness and lack of endurance powers upon the present restrictions and conservation of food-stuffs, for food alone cannot build flesh if the blood itself is not properly nourished.

There is more than enough food nowadays, he contends, but nature requires something more for starved blood and nerves, and to prove his assertion that nothing will supply this deficiency so well as Irogen, he points to hundreds of cases where thin, weak, frail people have gained astonishingly in weight and become strong, sturdy, healthy men and women after using Irogen, which, he states, he has prescribed in his practice with gratifying results.

This increase in weight is also followed by a great improvement in the general health, it is said. Nervousness, sleeplessness and lack of energy, which nearly always accompany thinness, indigestion and dyspepsia, soon disappear, dull eyes become bright and pale cheeks glow with the bloom of health, is the report of those who have watched the results of the new product.

Warning is given, however, that owing to its well-known flesh-building powers, Irogen should not be taken by anyone who for any reason does not desire to add flesh.

Note: Irogen, the product mentioned above, is now on sale in Ada by Gwin & Mays, in Allen by G. W. Busby, in Francis by the Francis Drug Company, in Stonewall by L. P. Carpenter and in Vanoss by the Lyon Drug Company, and the leading druggist in practically every city, town and village in the state.

HUNGARY MENACED BY BOLSHIEVISM

VIENNA, Jan. 13.—(Correspondence of the Associated Press)—The menace of Bolshevism has created a critical situation in Hungary whose general outlook is considered infinitely worse than in German-Austria. Under the present government the condition of the country is described as chaotic and a serious Bolshevik outbreak is expected. With its army disbanded the government is unable to offer resistance even if it had the courage and energy to do so.

Public moneys, it is asserted, are being "squandered" at an "appalling rate" and leading financiers express fear of bankruptcy of the state. The whole situation of the country is reported to be "inconceivably worse than at any time during the four years of war."

The government is preparing to hold general elections but under the present conditions this appears to be a physical impossibility. There are no lists of voters, and the franchise has been extended from 1,500,000 to 7,000,000 including women who have been granted suffrage. With part of the country occupied by enemies, elections in these districts will be impossible, it is declared.

The fear of Bolshevism is growing daily and everywhere the people are urging that the allies intervene. They express the fear that the conditions now existing in Russia will be repeated in Hungary. Hungarian prisoners of war have returned from Russia imbued with Bolshevik ideas and are spreading the propaganda. It is the general opinion of the people that the Karolyi Cabinet made a mistake in disbanding the army leaving the country at the mercy of the invaders.

While the greatest dissatisfaction is expressed in political circles and among the people generally, and ministerial crises are daily occurrences, no political party seems willing to assume the reins of government. Count Karolyi appears to be the only leader available.

FOOLING WITH HEALTH SERIOUS.

I have frequently asked druggists "What do you push in a blood medicine?" The answer usually came: "The kind I can make the most money on." My answer has always been, "Not me." I have succeeded pretty well and I have always recommended the one that I have found by experience to be the best and the one I would be willing to take myself or give to members of my own family. I have never offered the public a medicine that we do not use at home. This is why I can offer "Number 40 For the Blood," with a clear conscience; we have not only tried it on thousands of others but on ourselves. We take it in all cases where a blood medicine is needed no matter in what form it shows itself and we get splendid results in constipation, kidney, stomach and liver troubles. I firmly believe if every one would begin in the spring and take "Number 40" they would escape malaria and fevers in all forms. J. C. Mendonhall, 40 years a druggist, Evansville, Ind. TEMPERANCE MASS MEETING AT METHODIST CHURCH

Wednesday evening at 7:30 at the Methodist church the citizens of Ada will have the rare opportunity of hearing Dr. Louis Albert Banks of Boston in a down to the minute temperance address. This man is well and favorably known in every great center in America as a truly great speaker and man of action. He taught school, practiced law and then "came into the ministry. On the platform he bubbles over with boundless optimism and good cheer.

For many years this leader of men and movements has been a fearless reformer. He has been mobbed by angry saloonists and shot down on the streets. For the cause of right he has hazarded his life time after time, and is still alive. That he is still a live wire will be clearly seen by those who hear him in his lecture Wednesday evening at 7:30 at the Methodist church. This mass meeting is for all the people.

HOMER ITEMS.

J. H. Paine and family moved to Ada Saturday. We are sorry to lose them from our community.

Jim Slocum visited home folks Sunday. Jim is one of the "good Samaritans" of the Homer neighborhood in case of sickness. His presence at Sunday School in the morning was greatly appreciated.

Bryan Slocum is battling with a second attack of "flu."

Mrs. Minnie Ghan is sick—the after effects of "flu."

Jim Carney and wife were Ada visitors Saturday.

Mrs. Bryan Robinson and sisters attended Sunday School Sunday.

Mrs. Lee Carney's aunt and family of Roff visited at Homer Sunday.

Virgil Brumley made a flying trip to Ada Thursday.

Daniel Paine visited home folks Thursday.

Miss Fannie Cooper spent the week end in the city, the guest of Miss Ina Noe.

The valentine post-card social given at the school Friday afternoon was enjoyed by all. Mrs. Duvall acted as postmistress.

Mrs. Duvall organized a girls poultry club at Homer Friday afternoon. The success of the club looks promising at present.

The students and teachers at Homer are sorry to lose Joe and Bessie Paine from school. They are desirable pupils and will make good wherever they go.

In the list given last week of those attending school every day last month, Jimmie Reece West's name was unintentionally overlooked.

The fifth grade girls made the best per cent of attendance for last month. Several perfect spelling slips were issued last month.

"The Brown Mouse" is thoroughly enjoyed by all the pupils who have had an opportunity to read it so far.

Mrs. G. P. Cooper moved home Saturday. Her daughter Bessie will stay with Mrs. J. H. Paine and continue her normal work until the close of the term.

Mr. and Mrs. G. P. Cooper and son Herbert spent Sunday with their son Tourney at Ahlosa.

How's This?

DRAFT TOOK HER TROUSERS

Woman Who Had Masqueraded as Man Fled to Desert to Keep Her Secret.

San Bernardino, Cal. — "John Bauer," must return to skirts after having lived eight years as a man. The selective draft law barred her secret to the world.

"Bauer," twenty-four years old, was apprehended in Death valley, near San Bernardino, where she had been living a year in solitude in an effort to avoid military registration.

According to the story told by the girl, she had been working as a man in and around San Bernardino seven years, and no one suspected her real sex. Then came the draft registration law, and she fled to the desert to protect her secret.

Yellow Paint on Barn Led to Murder. Davenport, Ia.—Ward Turner, accused of getting married to evade the draft, recently found his barn painted a bright yellow. Turner accused Dennis Flynn of painting his property and in the fight that ensued Flynn was fatally wounded.

**PIE SOCIAL GIVEN
BY WOODMEN CIRCLE**

The Woodmen Circle of Ada realized the sum of \$70 on the pie supper held Monday evening. One cake brought the handsome sum of \$20.

The supper was one of the popular old fashioned kind and the popularity of this one was evidenced by the fact that around 200 were present, a large percentage of whom were visitors and everybody took an active part in the proceedings.

Hugh Bennett, Consul Commander of the W. O. W., acted as auctioneer and a most effective one he made, selling everything at top prices. When the contest for the ugliest man present was pulled off the auctioneer won the cake hands down over all competitors. Misses Ruby West and Iva Smith tied in the contest for the prettiest lady present and the nice cake prepared for the occasion was divided equally between them.

The assemblage was served with cakes, pies and coffee and all present expressed their satisfaction at the success of the occasion.

**NEBRASKA JUDGE
NOW ENDORSES IT**

Hon. B. F. Whittington Has Gained Twenty Pounds by Taking Tanlac—Wants to Help Others.

One of the latest additions to the long list of prominent men in public life, who have endorsed Tanlac, is the name of Hon. B. F. Whittington, judge of the Robinson Court, South Omaha, Nebraska. In relating his experience with the medicine, Judge Whittington said:

"The results I have obtained from Tanlac seem wonderful to me. Before I began taking it, my health was broken in many ways. My liver was all out of fix, I was habitually constipated and bilious. I was so frightfully dizzy most of the time, that I could not stoop over for fear of falling. My kidneys were out of order and I had fearful pains in the small of my back. I could eat but my food did me no good. Sleep failed to rest me and I felt tired and worn out all the time. I had been in this condition for a year and was becoming badly worried as nothing seemed to reach my case.

"I had fallen off twenty pounds in weight as a result of my troubles, but I have gained it all back by using Tanlac and have never felt better in my life. I felt like a new man before I finished my first bottle. I took five bottles and now I haven't an ache or pain and am feeling great. I eat like a farm hand and sleep like a log and get up in the morning feeling fine. I gladly give this statement for what it may be worth to others who are trying to find relief."

Tanlac is sold in Ada by Gwin & Mays.

**PRESIDENT GORDON WILL
ATTEND NATIONAL COUNCIL.**

President J. M. Gordon will leave Wednesday for Chicago to attend a meeting of the National Council of Normal School Presidents to be held at the Auditorium Hotel Friday and Saturday of this week. The Department of Superintendents and Principals of the National Education Association meets at the same place next week, and Mr. Gordon will attend several days of this session.

President Gordon states that this will be a very important meeting, coming as it does at the close of the war and the beginning of a definite program to meet the after-war problems. Some of the topics to be discussed at the meeting of the Normal School Presidents are "A Scheme for the Education and Americanization of Immigrants," "Standardization of Positions and Salaries in the Normal Schools," "Problems Involved in the Reorganization of Education," and "Problems Confronting the Normal Schools of the Southern States, Central States, and Western States." The most important topic for discussion is "The National Emergency in Education and a Program for Readjustment," by Dr. George D. Strayer, president of the National Education Association.

It will be remembered in this connection that Dr. Strayer is to be the principal speaker at the meeting of the East Central Oklahoma Education Association which convenes at the Normal School building, March 6 to 8.

Thomas Stillwell is buying a car-load of hogs to ship.

Bud Wiley who has just returned from France, was severely wounded through the neck and shoulder, and is now in the hospital at Fort McPherson, Ga. He has been in France for the past five months. He was wounded the 28 day of September, after having gone "over the top."

Everyone invited to attend the box supper Saturday night, March 1, at our school house.

The pupils who attended school every day this week are as follows: Browall, Opal and Virgle Gwaltney and Oma Norton.

The school had a jolly time Friday evening of Valentine day. More than one hundred valentines were distributed.

Mrs. Nolen visited Mrs. Jane Norton Sunday.

The singing at Mr. Stilwell's was well attended and everybody reports a nice time.

Rev. Damron will preach here Sunday, February 23, at ten o'clock a. m. and at three o'clock p. m. Everybody come out.

Four new scholars were enrolled this week.

Oma Adams and Opal Gwaltney visited Annie Norton Sunday.

Osa Dunham visited Flora Ballard Sunday.

Steve Wiley in Hospital

Fort McPherson, Ga., Jan. 22.

Mr. Henry Golden.

Dear Old Friend, I will write you a few lines, once more to let you know I am still kicking, but not very high.

I hope you and your family are well and enjoying life. Wish I might see you all.

Well I am back from France on good old U. S. soil once more. Not able to be about as I am now in the hospital here. I can't tell you when I will be out.

This has certainly been a bloody war. I have seen men killed and falling on all sides of me. I look back at the horrors I went through and cannot see how I escaped alive. I was wounded the 28th day of September and have been in the hospital ever since. I was shot through the neck and shoulder, the wound in the neck cutting a nerve. I also have a bum arm and all of my fingers are stiff.

I could tell you so much if I could see you, as I cannot I will close by asking you to write soon and tell me all the latest news. Give my love to all. By, by.

(Bud) Steve Wiley.

Odds and Ends Suit Sale****CHOICE \$15**

We want to make it clear that we didn't have to cut the Prices to sell the Goods. We could have hung on to our regular figures (they were fair and legitimate) and done a regular volume of business, which might have resulted in our carrying over a few Suits.

But instead of holding on—we made up our minds to dispose of all odds and ends sizes in \$20, \$25 and \$30 Suits so our customers could reap the saving Now—and we would have all fresh Goods to start with next Season—

Come and Get Your Size Before It Is Gone.

All Boys' Suits 1-2 Price.

New Note in Street Music.

A new note in street music is struck in the Strand, where a performer on a piano-organ exhibits a placard stating that he is an ex-convict who has done four years. There are also statements as to police supervision and the instrumentalist's desire to do well; and, as a guarantee of good faith, the placard concludes with the address of his firm of solicitors and of his medical attendant.—London Chronicle.
